

Best Friends Forever Program

The early childhood and early school years are when children start to make friends, learn to cooperate with others and begin to solve social problems. Like all skills, some children develop social skills more easily than others. Social skills are of the utmost importance for every child's future development. The Best Friends Forever program aims to improve your child's social interactions with both peers and adults. It is facilitated in small play-based groups where children learn and practice a range of social skills.

Key Goals:

- Respecting teachers and parents
- Learning how to ask for help
- Build listening skills and learn how to follow instructions
- Learn how to greet others and have reciprocal conversations with friends and adults
- Following rules and instructions
- Know how to share and take turns fairly
- Dealing with feelings of fear, sadness and anger, and solving problems.

*Groups run every term, please contact our office for more information on time and costs.
