## MENTAL HEALTH CARE PLAN (MEDICARE)

To obtain a Medicare rebate, a written referral from your GP, Paediatrician or Psychiatrist is required. The current Medicare rebates for child and adult therapy is \$87.45 for up to 20 individual sessions per calendar year due to COVID-19. On the spot Medicare claiming is available at the Wynnum Clinic only.

For further information regarding rebates through Medicare please visit:

[www.health.gov.au](http://www.health.gov.au)

Or visit the Australian Psychology Society website:

[www.psychology.org.au/medicare/fact\\_sheet](http://www.psychology.org.au/medicare/fact_sheet)

## CHRONIC DISEASE MANAGEMENT ITEMS -PREVIOUSLY THE ENHANCED PRIMARY CARE (EPC) PROGRAM

The chronic disease management (CDM) Medicare items are part of a government initiative that assists people living with a chronic and/or complex medical illness. Medicare rebates are available for treatment from allied health professionals who are assisting in managing the illness. The current Medicare rebates for child and adult therapy is \$54.60 for up to 5 individual sessions per calendar year. Clients have complex care needs if they need ongoing care from a multidisciplinary team consisting of their GP and at least two other health care providers, one of which may be a speech pathologist.

The GP will prepare a GP Management Plan and Team Care Arrangements and make the referral to the speech pathologist. The client cannot claim the rebate from Medicare until the speech pathologist receives the referral form. The GP nominates the number of sessions up to a maximum of 5 per calendar year. The five sessions are per client, not five sessions per allied health professional, and may be with a number of allied health professionals (e.g., three with a speech pathologist and two with an occupational therapist). If all sessions are not used during the calendar year in which the client was referred, the unused sessions can be used in the next calendar year. However, those sessions will be counted as part of the five sessions with allied health professionals available to the client during that calendar year. Clients continue to be eligible for rebates for speech pathology while they are being managed under a CDM plan as long as the need for eligible services continues to be recommended by their GP in their plan.
